Project Management Professional (PMP)® Online

Project Management Professional (PMP)® is an industry-recognised certification for project managers. Globally recognised and demanded, the PMP credential demonstrates that you have the experience, education and competency to successfully lead and direct projects.

The ILX PMP e-learning is based on the Project Management Institute, *A Guide to the Project Management Body of Knowledge, (PMBOK® Guide) – Fifth Edition, Project Management Institute, Inc., 2008*. Students view and review e-learning sessions, complete a range of interactive exercises in each session and test themselves with a range of multiple choice format questions. These questions are based on typical questions in the PMP examination.

At the conclusion of the course students will:
- ✔ Have sufficient knowledge and understanding to work as an informed member of a project team undertaking a variety of project management roles
- ✔ Be able to examine and analyse the inputs, tools and techniques of the processes and knowledge areas of the *PMBOK® Guide*
- ✔ Be prepared for the PMP examination having completed the required 35 contact hours
- ✔ Be able to describe each process group and knowledge area of the *PMBOK® Guide.*

WHAT'S INCLUDED?
The ILX PMP e-learning course is highly interactive and engaging, containing animation and narration throughout. Built using ILX's proven development approach, the course breaks down the PMI's Body of Knowledge into easily digested sessions, which align with each of the *PMBOK® Guide*'s knowledge areas.

Contained within the course is:
- ✔ 27 separate sessions covering knowledge areas described in *PMBOK® Guide* – sessions contain real life examples helping learners to apply the theory
- ✔ Over 400 pages of multimedia content – the actual study time is in the region of 35-40 hours
- ✔ A wealth of interactive exercises and puzzles to help develop practical application and assist with knowledge retention; learners are also introduced to ILX's virtual classmates, a group of animated characters who help explore some of the *PMBOK® Guide*'s more complex concepts
- ✔ A proven exam simulator and a 50 question post-course quiz to test the users understanding.

Target Audience
The PMP credential recognises demonstrated competence in leading and directing project teams. Experienced project managers should consider this qualification to consolidate their skills and allow them to demonstrate and be recognised as capable project managers.

Pre-requisites
If you wish to take the PMP exam, PMI does require that you either hold:
- ✔ A four-year degree (Bachelor's or the global equivalent) and at least three years of project management experience, with 4,500 hours leading and directing projects and 35 hours of project management education, or
- ✔ A secondary diploma (high school or the global equivalent) with at least five years of project management experience, with 7,500 hours leading and directing projects and 35 hours of project management education.

You also have to apply to the Project Management Institute (PMI)® before you can sit the exam. There's a strict protocol as they have to authenticate that the above criteria has been met prior to exam attendance.
