PRINCE2® Practitioner Re-Registration Pack

Certification in the PRINCE2 method has become the benchmark standard throughout the project management industry. The most desirable level of certification is the PRINCE2 Registered Practitioner qualification.

The PRINCE2 Manual is periodically revised and enhanced to reflect the latest best practices in project management and the most recent update was in June 2009. As a result, in order to maintain the status of PRINCE2 Registered Practitioner, certificate holders must re-take a re-registration exam every 3–5 years.

This one hour examination ensures that registered Practitioners are fully up to date with any revisions to the method and can evidence that their knowledge of the method is current. This is the only qualification scheme aimed at Project Management professionals that is recognised by the UK Accreditation Service (UKAS) in accordance with the requirements of EN 45011 and EN 45013.

The blended learning will provide a comprehensive overview of the recent changes and developments in the PRINCE2 method together with comprehensive and up to date guidance on examination technique. This blended learning course combines the best of e-learning with a 1 day workshop in which the PRINCE2 Practitioner Re-registration examination is taken in. Work your way through the e-learning at your own pace and then book your 1 day workshop when you are ready and within 12 months of purchase.
